

Every day, we perceive the world around us through our senses—including sight, smell, hearing, touch, balance, and taste. But as it turns out, our sense of taste comes from the taste buds on our tongue. These buds are also called papillae (say: puh-pih-lee). But, the sense of smell also affects our taste.

The Royal Engineer, Is This Your Day: How Biorhythm Helps You Determine Your Life Cycles, Eliminating Wasteful Contractor Bonuses: Hearing Before The Federal Financial Management, Government, Eleven Kids, One Summer, Living With Chronic Illness: Days Of Patience And Passion, River Monsters: True Stories Of The Ones That Didn't Get Away, A Life Of James Boswell,
